CITY OF OVERLAND PARK - POSITION DESCRIPTION

TITLE: Multi-Disciplined Code Official II  
BAND/LEVEL: PROF II

DEPARTMENT: Planning and Development Services  
JOB NO: 3255

DIVISION: Building Safety  
DATE: 11/15/2019

REPORTS TO: Team Supervisor, Building Safety  
FLSA STATUS: Non-Exempt

FT/PT/SEASONAL: Full-time  
COST CENTER: 608

REPLACES: Multi-Disciplined Inspector II & Plans Examiner  
LAST REVISED DATE: 10/05/2018

JOB SUMMARY STATEMENT:
Reviews and approves construction documents related to commercial and residential structures for compliance with City-adopted building codes and other related ordinances related to building construction and safety. Conducts field inspections to assure compliance with the approved plans, and with City-adopted building codes. Responsible for the plan review and inspection processes for code review. Serves as the Plans Examiner of the Day. Assists in the training of Multi-disciplined Code Officials I. Assists in emergency operations, to include snow removal operations as required, and other duties as assigned. This is a mid-level position within the multi-disciplined code official family. Assigned projects are varied with a complexity in the mid-range.

DUTIES AND RESPONSIBILITIES:

1. Assumes the role of a project manager who is responsible for coordinating the overall plan review process among the internal and external divisions and agencies required to approve projects. Coordinates the flow of communication to the applicant and manages the phasing and issuance of permits. Responsible for plan review and inspection processes and activities from permit application to issuance of final certificate of occupancy.

2. Reviews construction documents submitted for the purpose of securing a building permit to construct new commercial or residential structures, or to alter, repair, demolish or add on to existing structures. Evaluates and analyzes various life safety systems and components for compliance with the building code and the referenced national standards as adopted by the City of Overland Park. The code review is a multi-disciplined review for compliance with the International Building Code which incorporates the International Residential Code, the International Plumbing code, the National Electrical code, the International Energy code, The International Mechanical Code, the International Fire Code, and the Existing Building Code.

3. Reviews and analyzes architectural and/or engineering plans and specifications, engineering calculations, shop drawings, hydraulic calculations, research reports, special inspection reports and other technical data to assure compliance with Overland Park’s adopted codes. Applies engineering principles and practices in the technical examination and analysis of wood, steel, concrete, and masonry structures and components. Makes independent decisions regarding compliance and alternate methods of design and construction.
4. Conducts inspections and witnesses various tests throughout the construction process in order to ensure compliance with the approved construction documents and City adopted codes on all permitted projects for new structures, or additions, alterations, repairs, or demolition of existing structures. Enforces erosion and sediment ordinance for one and two family dwelling construction sites. Serves as the lead person on joint inspections or investigations conducted with other divisions and departments including the Fire Department. Authorizes, the issuance of temporary certificate of occupancy, or final certificate of occupancy. Responsible for reviewing and approving special inspection reports. Witnesses’ acceptance testing of elevator equipment.

5. Serves as Plans Examiner of the Day. Provides technical support to clerical staff for review and approval of permits issued over the counter and other permit applications. Provides telephone and walk-in assistance to public regarding code requirements and interpretations. Visually reviews plans to ensure compliance with City-adopted ordinances and codes. Performs code and engineering structural reviews of residential room additions, decks, porches, structural alterations, and residential accessory structures. Reviews plot plans and other plans of residential projects to ensure compliance with City-adopted ordinances and codes.

6. Meets with design professionals, developers, owners, and contractors in preliminary design meetings. Meetings generally entail a discussion of the permit process as well as a code review of preliminary plans or design concepts to identify potential problems. Potential problems are identified. Advise as to possible approaches to gaining compliance with the codes or resolving related problems is put forth.

7. Meets with design professionals, developers, owners, and contractors in pre-construction meetings. Meetings include an explanation of City requirements and processes that are pertinent to the construction process.

8. Keeps abreast of changes to the building codes, new products, and code enforcement techniques.

9. Responds to concerns from citizens, contractors, staff or other interested parties pertaining to possible violations of the International Property Maintenance code, contractor licensing requirements, erosion and sediment control and various other requirements found in the building codes. Compiles evidence, issues “notices of violation”, consults with Prosecutor’s Office regarding legal action, issues “Notices to Appear” in municipal court and testifies at arraignment and trial.

10. Assists in the training of Multi-disciplined Code Official I.

11. Conducts acceptance tests of all elevator equipment including escalators. Monitor the removal of fuel storage tanks.

12. Carries the Building Safety Emergency Pager and responds to emergency call-outs. Assists in emergency operations, such as including snow removal, damage assessments and providing mutual aid as required. Employees hired on or after May 12, 2008 will assist in emergency operations to include snow removal operations as required.

13. Participates in emergency management operations for the City, as requested. Carries out and/or performs other duties as assigned.

14. The employee must work the days and hours necessary to perform all assigned responsibilities and tasks. Must be available (especially during regular business hours or shifts) to communicate with subordinates, supervisors, customers, vendors and any other persons or organization with whom interaction is required to accomplish work and employer goals.

15. The employee must be punctual and timely in meeting all requirements of performance, including, but not limited to, attendance standards and work deadlines; beginning and ending assignments on time; and scheduled work breaks, where applicable.
