Mayor Carl Gerlach  
Council President John Thompson  
Members of the City Council

**2019-2023 FIVE-YEAR FINANCIAL PLAN, CAPITAL IMPROVEMENTS PROGRAM  
AND MAINTENANCE PROGRAM**

Mayor and Councilmembers:

Attached is information and supporting materials for your review and consideration regarding the proposed 2019-2023 Five-Year Financial Plan, Capital Improvements Program (CIP) and Maintenance Program. This five-year financial plan forecasts revenues and expenditures for the 2019-2023 five-year planning period and will serve as the framework for operating, maintenance and capital expenditures during development of the 2019 Budget and throughout the five-year planning cycle.

**OVERVIEW**

During 2017, the City's fiscal position has remained within our targeted financial standards. Leadership emphasis on prudent expenditure patterns has resulted in annual projected operating expenditures at 94% of the budgeted amount, which has allowed additional resources to be allocated toward capital and maintenance needs. At the same time, revenue growth has exceeded expectations surpassing budgeted projections by approximately 4%, or \$6.4 million.

The combination of prudent spending and better than anticipated revenue growth has resulted in an improvement in the City's current fiscal position to a level consistent with our financial planning objectives. The December 31, 2017, General Fund balance is projected to be \$46.7 million, a growth of approximately \$3.6 million over the 2016 year-end balance of \$43.1 million. However, the proposed 2019-2023 plan intentionally spends down this fund balance on much needed investment in capital and maintenance.

Current economic indicators and development trends suggest the economic expansion the City is experiencing may continue at a modest pace during the City's five-year financial planning period. City sales and use tax is expected to grow by approximately 1.9% during 2018, while existing property values also continue to grow. Local construction activity and future economic development planning has been strong in 2017, for the sixth consecutive year. These factors suggest modest sustained growth within the current existing revenue structure.

Despite these positive indicators, some uncertainty continues regarding the City's long-term financial outlook, due partly to the potential impact of decisions at the state government level. In the summer of 2015, the Kansas Legislature approved property tax lid legislation, which continues to have the potential to constrain the City's ability to meet revenue growth to meet city public service needs. Some amendments were made by the 2016 Legislature including exemptions for construction of new structures or improvements, and costs increases for law enforcement, fire or emergency medical services. The "allowable growth" formula tied to the Consumer Price Index (CPI) was also amended to be based off of the preceding five calendar years; not just the previous year. Since CPI does not accurately gauge or reflect real growth in the City's annual expenditures (it does not take into account personnel costs), this artificially imposed revenue constraint may create new financial pressures in the future.

Under Kansas Statute, preparation of the 2018 Budget was the first year using the calculation and exemptions. The City used the computation forms as provided by the State to determine the allowable mill levy. For the 2018 Budget, given the adjustments for CPI, new improvements and changes in use and exemptions for Public Safety, we are able to capture the full increase in assessed valuation to support city services. Even though we were able to capture the increase for the 2018 Budget, the full impact cannot accurately be determined for several years.

Furthermore, as the State continues to wrestle with its own fiscal problems, concern exists that further actions by the Kansas Legislature could reduce other City revenues which fund community services and provide investments in infrastructure. In addition, there is always the risk of an external economic or socio-political event that could create a down turn in the local economy. Based on these ongoing uncertainties and risks, the City continues to take a somewhat cautious approach in expenditure planning throughout the five-year financial planning period.

While the City continues to carefully assess the economic and political climate, the growth in 2017 and relatively stable economic outlook in 2018 through 2023 does allow for continued investment in areas critical to the community's livability and quality of place. Particular areas of focus continue to include community reinvestment in neighborhoods, new infrastructure and infrastructure maintenance, and public safety resources.

The proposed 2019-2023 Financial Plan continues enhanced funding for the residential street reconstruction program made possible by the 0.96 increase in the mill levy passed as part of the 2017 Budget. The increase of approximately \$2.6 million has provided approximately \$28 million in the five-year plan to be invested in this program. The five-year plan also continues to incorporate the increase in the user fee portion of the Stormwater Utility fee to fund an annual Curb Repair Program. Additional funding continues in the five-year plan for public safety, public works and parks infrastructure as a result of the passage of the Johnson County Courthouse sales tax approved in November 2016. Most of that funding has been programmed for public safety and public works as directed by the City Council, with some funding dedicated to major parks projects. Attachment 3 includes information regarding the five-year plan for allocation of the proceeds of this sales tax. This plan has been incorporated in the overall proposed 2019-2023 CIP and Maintenance Plans.

The proposed 2019-2023 Five-Year Financial Plan remains on target to achieve the City's long-term capital, maintenance, operation and financial goals. Sufficient resources are allocated toward improving capital investment, maintaining infrastructure and facilities, preserving existing programs and services, and preserving capacity to provide strategic enhancement of resources for specific City operational and service demands as necessary. In addition, central to the five-year plan is long-term sustainability and maintenance of a stable financial position, with General Fund reserves projected to maintain a fund balance close to the thirty percent (30%) target throughout the planning period. This is the level believed necessary to maintain financial stability and security, and is an important element in preserving the City's triple-A (AAA) bond rating.

As presented, the proposed 2019-2023 financial plan is in alignment with the City's adopted fiscal policy and financial standards. The City's projected ending cash balance at the end of 2023 is \$42.6 million, which equates to an ending cash position of 29.7% of the subsequent year's projected operating expenditures.

Additional details regarding the five-year financial plan, a forecast of revenues and expenditures, and capital and maintenance expenditures follow in the sections below and in the attached materials.

## **2019-2023 FIVE-YEAR FINANCIAL PLAN**

The starting point for the 2019-2023 five-year plan is the 2018-2022 financial plan and the 2018 Budget adopted in August 2017. Revenue and expenditure forecast assumptions have been modified to reflect updated information and applied to the planning period. Additional details regarding key revenue and expenditure elements of the plan are summarized below. A copy of the assumptions and standards is attached (Attachment 1).

Most of the key revenue assumptions remain largely consistent with those presented during development of the 2018 Budget. Retail sales and use tax is anticipated to grow approximately 1.8% annually in 2019-2023. Assessed valuation for the 2019 is projected to increase by 5% above the 2018 base. Assessed valuation is projected to increase by 3% throughout the remainder of the five-year plan.

Key expenditure assumptions also remain largely consistent with the previous financial plan. Operating budget expenditures are anticipated to grow on average of 4.2% per year. This increase is based on projected increases in personnel (salary and benefit) costs as well as inflation on equipment, contracts, and commodities.

### Revenues

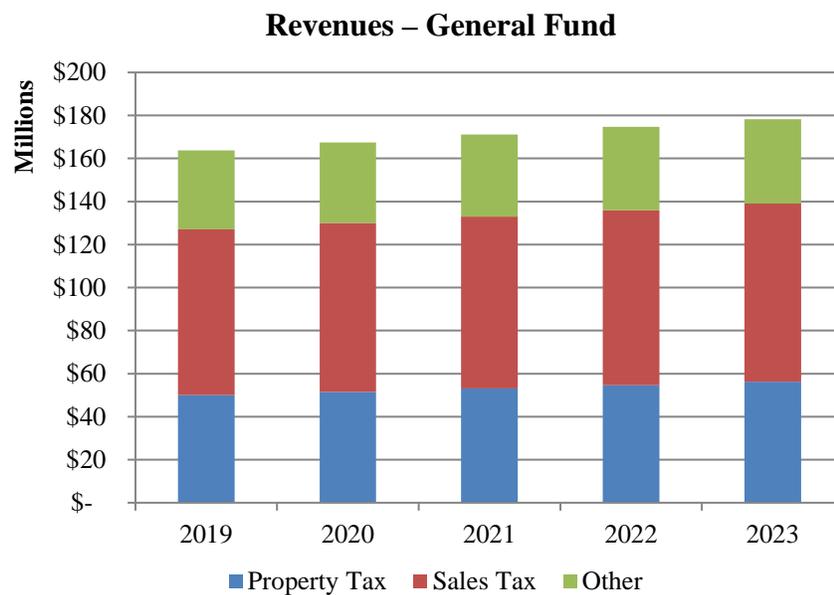

The forecast of the City's one-cent retail sales and use tax collections has been reviewed and updated based on actual sales activity through October 2017. Due to the volatile nature of sales tax as a revenue source, sales tax collections are reviewed on a quarterly basis, with the official sales tax forecast updated annually or semiannually, as appropriate. Based on recent sales tax analysis, adjustments have been made to the forecast. Sales tax assumptions for 2019 through 2023 include a growth rate of 1.8% annually, while 2018 revenue is projected to increase 1.9%

over 2017, to \$48.3 million.

Property tax based revenues have also been adjusted. Based on preliminary market data, we anticipate that the assessed valuation for the 2019 Budget will reflect an increase of 5%. We project a 3.0% increase annually through the balance of the five-year plan. The increase in 2019 is contingent on both a modest increase in existing property values due to reappraisal, as well as continued new construction occurring in the city. Personal property and state assessed utility valuations are anticipated to continue to decline due to exemptions enacted by the State.

The final mill levy for the 2018 Budget of 13.565 mills is held constant throughout the five-year plan.

Other revenue sources, such as development fees, recreation fees and court fines, have been adjusted with relatively minor impacts on overall resources during the 2019-2023 planning period.

### Operating Expenditures

The proposed five-year plan projects annual operating expenditures to increase approximately 4.2% per year.

The planned operating growth includes a 5% overall increase in personnel benefit costs to meet estimated obligations costs for City retirement programs, including increases to KPERS and KP&F, as well as health care increases. In addition, a salary adjustment of 3.5% annually is incorporated within projected expenditures to account for promotions and merit increases. The combined projected annual expenditure growth for personal services is approximately 4.0% per year in 2019-2023.

As personal services account for 78% of the General Fund's operating budget, this growth rate is one of the primary drivers of expenditures in the financial forecast. Other areas of the operating

budget are projected to increase slightly. Commodities and contractual services are projected to grow 3.0% annually, while capital outlay (equipment replacement) is planned to remain at \$3.25 million annually throughout the five-year plan.

### Capital and Maintenance Expenditures

Additional resources available in the five-year plan have been allocated to expenditures that address capital improvement and major maintenance needs.

The total proposed 2019-2023 CIP equals \$180.77 million. This is a \$3.9 million or 2.1% decrease from the previous plan. Of the decrease, the amount of City resources dedicated within the plan has decreased by \$1.4 million. Intergovernmental, private and developer resources have decreased by \$2.55 million. As with the previous CIP, priorities for capital investment are in transportation, public safety equipment and facilities, replacement of information technology, and improvements to park infrastructure and amenities. Information technology is the fastest growing category of overall expenses as we become more dependent on these systems required for the delivery of essential public services. Resources from the Johnson County Courthouse sales tax are specifically dedicated to public safety, public works and parks projects throughout the five-year plan.

The proposed 2019-2023 Maintenance Program equals \$108.83 million, an increase of \$7.2 million or 7.1% from the adopted 2018-2022 plan. Funding for street and traffic maintenance has increased \$2.3 million or 3% compared to the previous maintenance plan. Revisions (increases) to project budgets were made in both the CIP and Maintenance Plan as we continue to experience rising construction costs.

Overall, this plan decreases the amount of cash funding (PAYG) in the CIP and shifts it to the MIP. Several new projects included in the CIP are buildings and investments that the City has historically funded through long-term bonds and is the funding included in this five-year plan for those investments. The maintenance plan continues to prioritize reinvestment into existing community assets to promote the City's long-term viability and maintain the City's emphasis on providing a high quality of life. However, there continues to be growing pressure on the MIP as the City reaches the 60 year-old mark in 2020.

### Fund Balance

Long-term financial planning, balancing current expenditures with current revenues, and ensuring adequate reserves are available to address emergencies or changes in economic or political conditions are cornerstones of the City's financial management practices.

The need for reserves was illustrated during the recession of the late 2000's, during which the City relied on the fund balance annually in 2008-2011 to assist in funding essential public services and continued minimal investment within the City. Since 2012, the City has been able to gradually rebuild its reserves.

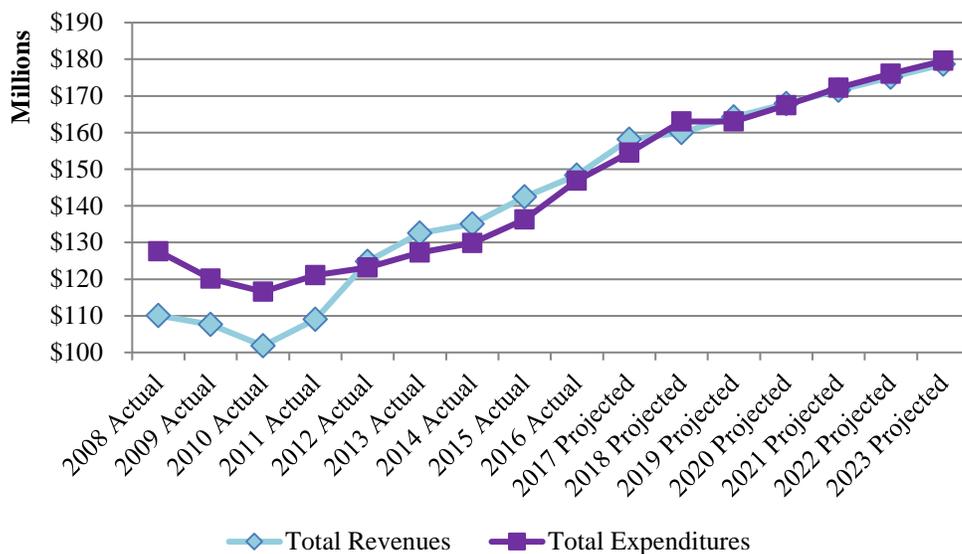

As of the end of 2017, the City's reserves have not recovered to pre-recession levels, however the reserve balance is within the fiscal policy targeted amount of 30% of annual expenditures.

Reserves of at least 30% are thought to be sufficient to provide flexibility to address emergencies or fiscal strains and to maintain the City’s triple-A bond rating, a sign of fiscal health.

The December 31, 2017, fund balance is expected to be \$46.7 million, or 42.8% of annual expenditures. Even though the 2017 calendar year has concluded, the final ending balance will not be reconciled until the annual audit this spring. While higher than the targeted level, defined needs and revenue projections that are just meeting projected expenditures throughout the five-year plan are projected to decrease the fund balance to \$42.6 million, or 29.7% by the end of 2023.

During 2019-2023, revenues are expected to continue to grow moderately, thus allowing for only inflationary growth increases to support current operations, as well as similar programmed increases in investment to capital infrastructure, facilities and maintenance. Based on current projections, these marginal adjustments can be absorbed within the financial plan through 2020. In 2021, given the current assumptions, a slight structural imbalance begins to occur where expenditures start to outpace existing revenue streams. At the end of 2022, the projected imbalance is approximately \$1 million. This means, assuming all current assumptions are correct, \$1 million of the fund balance is needed to fund operations in 2022.

### Structural Balance - General Fund

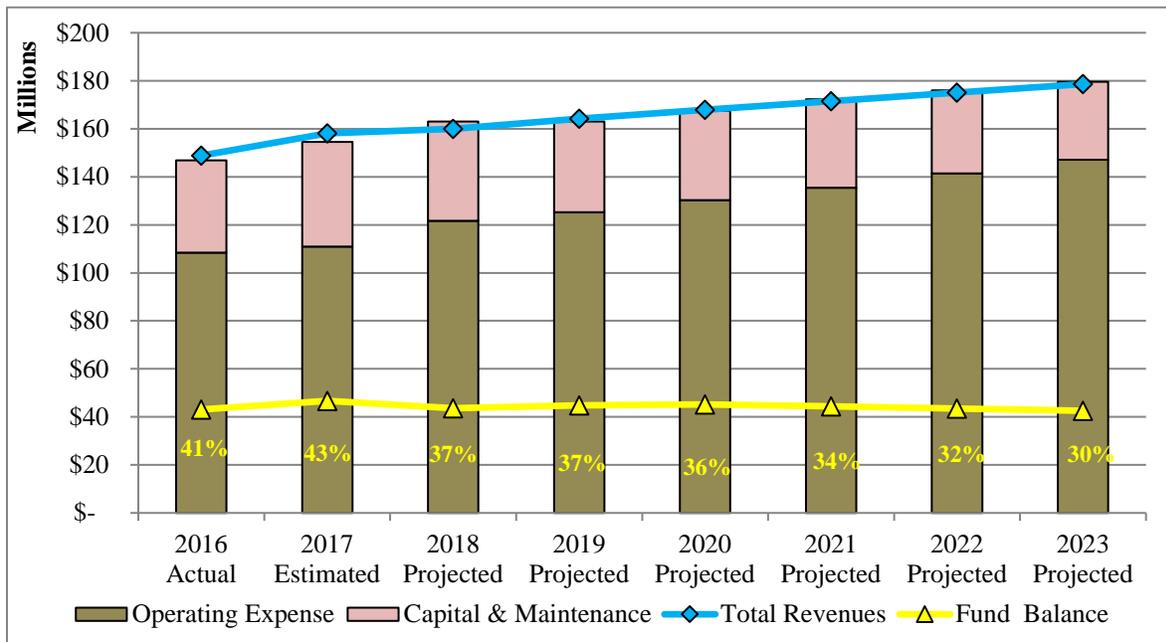

As illustrated in the above chart, anticipated revenue growth will be absorbed by increased costs associated with programs and services currently included in the five-year plan. Although generally balanced there is not a lot of flexibility, other than the fund balance, should revenues start to decline or not meet projections.

As presented, the 2019-2023 Financial Plan, CIP and Maintenance Program maintains a stable financial position within the acceptable ending balance range throughout the planning period, and results in an ending fund balance of 29.7% in 2023. This balance is close to the City's fund balance target of at least thirty percent (30%) reserves at the end of the financial planning period.

As a result of the addition of Public Building projects in the plan, General Obligation (GO) Bond Funding in the 2019-2023 Financial Plan increases by a net of \$5.89 million. Even with the increase in debt service, when included in the plan the ratios are still well below the established Financial Plan Standards of less than 20% of debt service cost to General Fund expenditures. Due to the retirement (pay-off) of several bond issues, during the 2019-2023 Financial Plan, the percentage of Debt Service Cost to General Fund Operation Expenditures is expected to decrease from 9.5% in 2019 to 6.1% in 2022.

### Five-Year Financial Plan - Revenues, Expenditures and Fund Balance

Attachments 1 and 2 include financial planning assumptions and financial standards for the 2019-2023 five-year financial plan.

### 2019- 2023 CAPITAL IMPROVEMENTS PROGRAM

As presented, the 2019-2023 CIP totals \$180.77 million. Information relating to the proposed CIP can be found in the attached tabbed section entitled “CIP.” The following table summarizes changes in the plan by project category.

2019-2023 Proposed CIP Compared to 2018-2022 Adopted CIP				
Project Category	2018-2022 CIP	2019-2023 CIP	\$ Change	% Change
Public Buildings	\$5,905,000	\$20,175,000	\$14,270,000	241.7%
Public Equipment	\$18,605,000	\$22,375,000	\$3,770,000	20.3%
Parks & Recreation	\$30,390,000	\$26,985,000	-\$3,405,000	-11.2%
Bridge Replacement	\$4,850,000	\$5,445,000	\$595,000	12.3%
Residential Street Program	\$31,650,000	\$27,155,000	-\$4,495,000	-14.2%
Sidewalk Construction	\$250,000	\$0	-\$250,000	-100%
Street Improvements	\$3,320,000	\$3,380,000	\$60,000	1.8%
Street Lighting	\$1,000,000	\$765,000	-\$235,000	-23.5%
Thoroughfares	\$81,585,000	\$66,075,000	-\$15,510,000	-19.0%
Traffic Signals	\$1,855,000	\$1,920,000	\$65,000	3.5%
Storm Drainage	\$5,245,000	\$6,490,000	\$1,245,000	23.7%
<b>Grand Total</b>	<b>\$184,655,000</b>	<b>\$180,765,000</b>	<b>-\$3,890,000</b>	<b>-2.1%</b>

The five-year plan total reflects adjustments to programmed projects, the addition of new projects and adjustment to funding due to the shift in included plan years (removing 2018 and adding 2023). Notable adjustments to the five-year plan totals include (please note, changes to plans and project totals may not reconcile due to the shift in plan years):

- The **Public Buildings** category increases by \$14.27 million within the plan years mainly due to the addition of construction of the Centralized Fleet Maintenance Facility located near 123<sup>rd</sup> and Antioch. Construction of the building is planned for 2019. Another notable change is the addition of construction costs for Fire Station #1. A portion of the funding is included in the five-year plan total in 2023 (\$1.8 million). The remaining construction cost in 2024 of \$4.8 million is outside of the plan total but shown for planning purposes. Approximately 1/3 of this project is funded by the Johnson County Courthouse Sales Tax. Finally, the Firing Range and Explosive Ordinance Disposal Range has been removed from the project due to site infeasibility (-\$800,000).
- The **Public Equipment** category increases by \$3.77 million due to refinement of projected costs in the current plan and the addition of several annual routine projects. Notable additions and changes include:
  - Additions:
    - Replacement of 15-year old Bomb Truck in 2020 (\$450,000).
    - Several Information Technology replacement projects including fiber switch upgrades, network and software upgrades and backup system replacement in 2022 and 2023 (\$1.9 million).
    - Replacement of Public Safety Technology, including upgrade of Mobile Data Terminals and Computer Aided Dispatch equipment in 2023 (\$125,000).
    - Replacement of fire apparatus in 2023 (\$705,000).
  - Funding for fire apparatus in 2020-2022 has increased based on current equipment prices.
  - Funding for the Police Mobile Digital Video Camera replacement project currently in process has increased by \$457,000. This includes updated video packages, additional storage and an increase in the number of cameras per vehicle. There is also an increase

- of \$825,000 to \$1.5 million planned for replacement of this equipment in 2022.
  - Funding for Police Body Worn cameras has increased by \$600,000 and shifted from 2018 to 2019/2020. The scope has been revised to include the purchase of an additional 150 cameras, bringing the total to 250, and additional storage and maintenance costs. The cameras will be integrated with Mobile Digital Video.
  - Funding for the City Two-Way Radio Replacement in 2019 has increased by \$140,000 for a total of \$3.6 million. These are radios used by departments throughout the City.
  - Funding for Cardiac Monitor Replacements in 2019 has increased by \$415,000 to \$765,000. The revised cost and timing reflects discontinuation of current devices and support from the current manufacturer.
  
- The **Parks and Recreation** category decreases by \$3.4 million. There is significant, sustained investment for both renovation and new construction of Parks in the five-year plan. The decrease in plan total is due to 2018 completion of construction of the new clubhouse at Sykes/Lady Overland Park Golf Course of \$8 million. This project is primarily funded from the Golf Course Fund. Project funding is allocated through 2018 and is not included in the 2019-2023 plan total. Notable additions and changes include:
  - Additions:
    - Renovation of Santa Fe Commons in 2019. In addition to City funds and County Courthouse Sales Tax, a significant portion of the \$3 million renovation will be funded by a generous private donation from a long-time Overland Park resident and businessman who wishes to invest in the vitality of downtown Overland Park.
    - Construction of a park at 161<sup>st</sup> and Mission Road in 2023 on property purchased by the City at the end of 2017 (\$3.3 million).
    - Funding for annual park improvements in 2023 to be determined by the Citizens' Advisory Council on Parks and Recreation (\$675,000).
  - Due to additional funding available in the Special Parks and Recreation Fund from existing fund balance and new fund projections, the annual Park Improvements Projects recommended by the Citizens' Advisory Council on Parks and Recreation increased in the last five-year plan to \$675,000 annually. This has been added to the plan in 2023 as well.
  - Costs for several park projects already included in the plan have increased based on current cost projections. Those projects included: Strang Park Renovation (increase of \$200,000 to \$2.3 million in 2020), 159<sup>th</sup> and Quivira Neighborhood Park (increase of \$175,000 to \$975,000 in 2021) and Kingston Lake restroom construction (increase of \$155,000 to \$410,000 in 2020).
  
- The **Bridge** category totals \$5.45 million, an increase of \$595,000, based on:
  - Revised cost of 167<sup>th</sup> Street Bridges over Coffee Creek based on updated engineer's estimate and inclusion of missing segments of roadway between Quivira and Switzer (\$730,000 increase).
  - Addition of design of Pflumm Road bridges over Coffee Creek, south of 159<sup>th</sup> Street (\$150,000).
  
- **Residential Streets** funding decreases by \$4.5 million. Due to project timing some of the funding from the 2016-2017 programs was transferred to the 2018-2019 programs. This

results in a total program cost of \$10 million in the 2018 project and \$8.3 million in the 2019 project which is higher than normal. Funding levels off and remains constant at \$4.8 million from 2020-2022. Additional resources became available in this program beginning in 2017 as a result of an increase in the mill levy. The 2019-2023 programs total approximately \$28 million.

- The **Street Lighting** category decreases by \$235,000 based on the completion of several street lighting projects in 2018 and revised project timing in upcoming years.
- The **Streets** category increases by \$60,000. Additions and changes in the category include:
  - Addition of 119<sup>th</sup> Street and Pflumm Road Intersection improvements (\$1.4 million). This project will be administered by the City of Olathe. Funding is for Overland Park's share of the project.
  - Addition of Mini-Roundabouts near 132<sup>nd</sup> Street and US 69 Highway overpass (\$400,000 million).
  - Roundabouts at 133<sup>rd</sup> and Neiman have been removed (-\$1 million) because the project did not receive federal funding.
  - Funding has increased for construction of 137<sup>th</sup> and Lamar Roundabout in 2019 (\$555,000) based on updated engineer's estimate.
- The total funding for **Thoroughfare** projects decreases from \$81.6 million to \$66.1 million. The decrease is due to significant increases in the price of thoroughfares thereby reducing the funding capability in this program when balanced with other requirements. Projects have been revised and/or removed to adjust to current prices and overall CIP budget capacity. The majority of changes to the plan are revisions to current project costs, but there are still three new projects added to the plan. Additions include:
  - Nall Avenue lane reduction of four to three lanes near Prairie Village in 2022 (\$660,000). Prairie Village will administer the project. This is Overland Park's share of the project.
  - Reconstruction of 167<sup>th</sup> Street; Switzer to Antioch in 2023 and 2024 (\$12 million). A portion of this project is outside of the plan year and not included in the total. It also includes \$3 million of federal funding.
  - Preliminary Engineering Study for future thoroughfare improvements in 2023 (\$200,000).

Changes include:

- Revised cost estimate for Switzer Road: College to Indian Creek Parkway in 2018 (-\$300,000). This is outside the plan total but of note.
- Revised funding for 159<sup>th</sup> Street: Metcalf to Nall. This project was constructed in 2017 and is nearing completion. The plan was updated to reflect a decrease in Johnson County funding of \$253,000 and shift to city funding.
- Revised timing for Quivira Road: 151<sup>st</sup> to 159<sup>th</sup> Street. Timing of construction was shifted from 2017 to 2018. This is outside the plan total but of note.
- Revised funding for Metcalf: 159<sup>th</sup> Street to 167<sup>th</sup> Street. Revised funding based on current CARS program and reimbursable expenses. Also shifts some of the funding source to the Johnson County Courthouse Sales Tax. This is also outside of the plan total but of note.

- Funding for 159<sup>th</sup> Street: Quivira to Pflumm for construction in 2019 has increased by \$280,000 due to updated engineer’s estimates of ROW and inspection costs. CARS and Olathe funding has also been added.
- Funding for Quivira Road: 159<sup>th</sup> to 179<sup>th</sup> Street for construction in 2019/2020 has increased by \$1.8 million (total project cost \$26.8 million) due to a revised estimate to include additional storm sewer and property acquisition requirements. Also revised to include additional CARS funding.
- Funding for 179<sup>th</sup> Street: Metcalf to US 69 Highway for construction in 2020 has increased by \$445,000 to \$2.6 million.
- Revised funding sources for 167<sup>th</sup> Street: Antioch to Metcalf for construction in 2021/2022 based on latest CARS estimate and addition of escrow funding.
- Revised funding and timing for Switzer Road: 159<sup>th</sup> to 167<sup>th</sup> Street for construction in 2023. Funding has increased by \$1.7 million (total project cost \$13.5 million) and the timing has adjusted based on project prioritization.
- Revised funding and scope for Quivira Road: 179<sup>th</sup> to 187<sup>th</sup> Street. This project has increased by \$3.7 million and construction has moved from 2023 to 2025 due to budget and prioritization (total project cost \$14 million). This moves the cost of construction out of the five-year plan. The revised scope includes curb, gutter, sidewalk and a roundabout at 179<sup>th</sup> and Quivira. This project may, in the future, have to be expedited depending on the amount of private development realized in the area.
- Revised funding and cost for Antioch Road: 167<sup>th</sup> to 179<sup>th</sup> Street. This project has increased by \$3 million and construction has moved from 2023/2024 to 2026/2027 due to budget and prioritization (total project cost is \$23.6 million). This moves the cost of construction out of the five-year plan total. The increase in cost is due to the updated engineer’s estimate.

The table below compares the thoroughfare funding by project in the adopted 2018-2022 CIP and proposed 2019-2023 CIP.

	<u>Adopted</u> <u>2018-2022</u>	<u>Proposed</u> <u>2019-2023</u>
TH-1026 167th Street, Antioch to Metcalf	\$18,250,000	\$17,750,000
TH-1027 Metcalf Avenue, 159th Street to 167th	\$13,230,000	\$0
TH-1083 159th Street, Quivira to Pflumm	\$5,025,000	\$4,305,000
TH-1129 Antioch Road, 167 <sup>th</sup> to 179 <sup>th</sup>	\$4,000,000	\$1,450,000
TH-1147 Quivira Road, 179th to 187th	\$2,325,000	\$1,050,000
TH-1665 Quivira Road, 159th to 175th	\$23,800,000	\$20,200,000
TH-1799 179th Street, Metcalf to US 69 Hwy	\$2,150,000	\$2,395,000
TH-1836 Switzer Road, 159th to 167th	\$11,805,000	\$13,515,000
TH-1852 2018 Preliminary Engineering Studies	\$200,000	\$0
TH-1853 2019 Preliminary Engineering Studies	\$200,000	\$200,000
TH-1854 2020 Preliminary Engineering Studies	\$200,000	\$200,000
TH-1855 2021 Preliminary Engineering Studies	\$200,000	\$200,000
TH-1856 2022 Preliminary Engineering Studies	\$200,000	\$200,000
TH-1912 2023 Preliminary Engineering Studies	\$0	\$200,000
TH-1856 Nall Ave. lane reduction	\$0	\$660,000
TH-1914 167 <sup>th</sup> Street, Switzer to Antioch	\$0	\$3,750,000
	\$81,585,000	\$66,075,000

- **Traffic Management Systems** increases by \$65,000 due to an increase in annual project funding (from \$380,000 to \$400,000 annually).
- The **Storm Drainage** category increases by \$1.25 million to \$6.5 million, reflecting the addition of a storm drainage improvement project in 2023 and adjustments to Preliminary Stormwater Engineering Studies funding in 2019 and 2020.

**2019-2023 MAINTENANCE PROGRAM**

The recommended 2019-2023 five-year financial plan includes emphasized programming and funding for maintenance of the City’s public infrastructure, facilities and park and recreation infrastructure. The 2019-2023 MIP as presented is \$108.83 million and is designed to accurately reflect the cost of maintaining existing City assets and is summarized by category in the following table:

<b>2019-2023 Recommended Maintenance Program Compared to 2018-2022 Adopted Program</b>			
	<b>Adopted 2018-2022</b>	<b>Proposed 2019-2023</b>	<b>Change</b>
<i>Infrastructure Maintenance</i>			
Streets	\$73,975,000	\$76,105,000	\$2,130,000
Traffic Infrastructure	4,025,000	4,200,000	175,000
Stormwater/Storm Drainage	12,510,000	10,390,000	-2,120,000
<i>Subtotal Infrastructure</i>	<b>\$90,510,000</b>	<b>\$90,695,000</b>	<b>\$185,000</b>
<i>Facility Maintenance</i>			
Public Buildings	5,025,000	8,900,000	\$3,875,000
Park Facilities	6,087,000	9,236,000	3,149,000
<i>Subtotal Facilities</i>	<b>\$11,112,000</b>	<b>\$18,136,000</b>	<b>\$7,024,000</b>
<b>TOTAL</b>	<b>\$101,622,000</b>	<b>\$108,831,000</b>	<b>\$7,209,000</b>

Significant changes to the 2019-2023 Maintenance Program as compared to the 2018-2022 adopted Maintenance Program are outlined below.

- Funding for maintenance of **Street Infrastructure Maintenance** increases by \$2.13 million to \$76.1 million. The majority of the increase is due to the addition of parking lot replacement projects in four parks (one per year) and mill and overlay of the Scheels Soccer Complex/Deanna Rose Children’s Farmstead parking lot. Additions include:
  - Parking lot replacement at Foxhill North and South Parks in 2019 (\$280,000).
  - Parking lot replacement and expansion at Nall Hills Park in 2020 (\$200,000).
  - Parking lot replacement at Indian Valley Park in 2021 (\$70,000).
  - Mill and Overlay of Soccer Complex/Deanna Rose parking lot (\$1.25 million).
  - Parking lot replacement at Quivira Park in 2023 (\$480,000).

- Annual Curb Repair and Replacement program in 2023 (\$820,000).
- Annual Street Maintenance and Repair Program in 2023 (\$13.4 million)

Changes include:

- Revised scope and funding for the 2018 Street Maintenance and Repair Program. Funding has increased by \$1.97 million due to revised funding available from CARS and other cities. This is outside the plan total but of note.
  - Funding for parking lot replacements at the Fire Training Center in 2018, Sanders Justice Center in 2019 and the Myron E. Scafe Building in 2022 has increased by \$220,000 in total for all three projects.
- **Traffic Infrastructure** maintenance funding increases by \$175,000. In the 2018-2022 CIP, \$125,000 was added annually to convert all residential streetlights from high-pressure sodium to LED. This remains in the program. All residential streetlights should be converted by 2021. The current MIP includes the addition of \$300,000 in 2023 to continue the annual conversion of 10 miles of streetlights from high-pressure sodium to LED. These conversion projects are funded through the Johnson County Courthouse sales tax. These conversions are projected to save the city significantly in operating costs annually. Funding for the annual Traffic Maintenance Repair Project is added in 2023 (\$550,000).
  - Annual funding for **Storm Drainage** decreases by \$2.1 million, due to the completion of several major storm sewer repair projects near 87<sup>th</sup> and Metcalf, 92<sup>nd</sup> and Walmer and 99<sup>th</sup> and Lamar in 2018. Although outside of the plan total, these projects increased \$410,000 collectively. The 2019 Major Storm Sewer Repair project increases by \$900,000 to \$2.5 million based on revision of scope and location selection. This project includes concrete channel replacement at Foster, 97<sup>th</sup> to 99<sup>th</sup> Street. The 2020-2022 Major Storm Sewer Repair programs increases by \$200,000 annually to \$2 million annually based on updated maintenance project priorities. The 2023 Major Storm Sewer Repair project funding increases by \$1.7 million to add construction costs for the project.
  - Maintenance for **Public Buildings** increases by \$3.9 million to \$8.9 million for the 2019-2023 five-year period. Additions include :
    - Replacement of the snow melt system in the crosswalk at Matt Ross Community Center in 2019 (\$160,000).
    - Remodel of City Hall on the second floor in 2019 to include security enhancements (\$585,000).
    - Remodel of the locker rooms at Sanders Justice Center in 2020 (\$385,000) and Scafe Justice Center in 2021 (\$450,000).
    - Replacement of the escalator (\$800,000) and roof (\$2.4 million) at the Convention Center in 2022. Both projects are funded by Convention Center capital reserves.
    - Annual general Building Maintenance Project funding in 2023.
    - Replacement of the HVAC System at the Soccer Complex in 2023 (\$180,000). Project is funded by the Soccer Equipment Replacement Fund.
    - Replacement of the boiler at Sanders Justice Center in 2023 (\$410,000).
    - Replacement of windows at Tomahawk Ridge Community Center in 2023 (\$165,000).

Although outside of the five-year plan total, the first floor City Hall remodel project including the City Manager's Office, lobby, stairwell and conference room in 2018 has increased by \$230,000 to \$805,000 to include the remodel of the bathrooms on the first and second floors to allow for ADA modifications.

- Funding for **Park Facilities** increases by \$3.15 million. The 2019-2023 plan generally includes funding for replacement of several playgrounds and one park restroom and shelter replacement annually. Additions and changes include:
  - Addition of annual playgrounds replacements:
    - 2019** – Amesbury, Lexington and Summercrest Parks (\$200,000).
    - 2020** – Cross Creek, Rosehill and Roe Parks (\$350,000)
    - 2021** – Cherokee, Robinson and Green Meadows Parks (\$300,000)
    - 2022** – Brookridge, Bluejacket and Foxhill North Parks (\$330,000)
    - 2023** – Kingston Lake, North and Gregory Meadows Parks (\$350,000)
  - Revised scope and cost for shelter and restroom replacement projects already included in the plan based on current construction prices. Those include:
    - 2020** – Indian Creek (increase of \$100,000 to \$600,000)
    - 2021** – Maple Hills (increase of \$360,000 to \$610,000)
    - 2022** – Hickory Hills (increase of \$475,000 to \$1.18 million)
    - 2023** – Antioch Acres (new addition to plan, \$660,000)
  - The five-year plan includes the continuation of annual project funding in 2023 Parks (\$450,000), Golf (\$200,000) and Soccer (\$93,000). Funding for Soccer Complex Maintenance has also been adjusted throughout the plan to provide additional funding for landscape maintenance, rubber and nets.
  - Although outside of the five-year plan, \$200,000 has been included in 2018 for improvements to the Farmers' Market including electrical, paint, pavement repair and drainage improvements. Although there is current discussion on future improvements to the Market, these improvements are necessary for operations in the short-term.

## **PLAN CONSIDERATION AND ACTION**

In summary, the proposed 2019-2023 Five-Year Financial Plan, Capital Improvements Program and Maintenance Program are recommended to the Governing Body for Goal Area Committee review during February 2018. We believe that the five-year plan as presented will allow the City to further its priorities of neighborhood stabilization through preservation and maintenance of existing public infrastructure, facilities and amenities; continue investment in essential public service delivery; and build the organization and infrastructure minimally as required to meet modest growth in both commercial and residential growth.

The schedule going forward includes presentation of Goal Area Committee recommendations to the Committee of the Whole on March 5. A public hearing on the final recommendation of the Committee of the Whole is scheduled for March 19, with adoption of a 2019-2023 plan for budget planning purposes following this hearing at the April 2 City Council Meeting.

If you need any additional information or have any questions please do not hesitate to contact me directly.

Respectfully submitted,

## 2019-2023 FINANCIAL PLANNING ASSUMPTIONS USED IN FIVE-YEAR FINANCIAL PLAN DEVELOPMENT

---

---

### GENERAL FUND REVENUE ASSUMPTIONS

1. The assessed valuation (AV) change for the 2019 budget is projected at 5.0% above the 2018 base of \$3,474,210,257. This change in AV includes an increase in the real property valuation due to reappraisal (3.75%) and due to new construction (+\$50.0M), a decrease in personal property (-\$2.0M) and state assessed utility valuation (-1%) due to the elimination of the Machinery and Equipment property tax on purchased items, and a discount for the tax increment financing (TIF) increment (-\$11.0M).

The AV growth rate is expected to remain moderate in 2020-2023. The projected change in AV is projected at approximately 3.0% annual growth during 2020-2023. The annual increase is estimated to be the combined average annual increase due to annual new growth of \$40 million and an average 2% annual reappraisal increase for real property, while personal property is projected to decrease by \$1.25 million per year in 2020-2023, and utilities are projected to decrease 1% annually.

2. General Fund Property Taxes are based on the projected assessed valuation, assuming a 1% delinquency rate. The 2019 budget General Fund property tax rate of 12.603 mills is held constant through the five-year planning period. The property tax rate is applied against total assessed valuation growth.
3. City 1¢ Sales Tax revenue is projected using the most current quarterly forecast of sales tax. The forecast of sales tax is based on historical data and is derived from the use of two different statistical models, regression analysis and Box-Jenkins. Sales tax collections by business category are analyzed, and external events (proposed legislation and competing retail development), which cannot be measured by the models, are considered when quantifiable.

The current forecast anticipates 2018 sales tax collections of the City's 1-cent combined retail sales and compensating tax will be \$48.3 million, \$900,000 above 2017 collections, a 1.9% increase. 2019 collections are estimated to be \$49.1 million, a 1.8% increase from 2018, and are projected to grow by an average of 1.8% annually in 2020 to 2023.

4. The City's share of the County 1/2¢ Sales Tax revenue is estimated to be 32.5% of total city sales in 2019-2023. This is consistent with actual collections. County sales tax is distributed to cities based on a formula that include both population and total property tax "taxing effort."

Annual growth in 2019-2023 is projected using the same percentage growth rates as the City's 1¢ sales tax.

5. The three County 1/4¢ sales taxes are distributed to cities under a different formula than the 1/2¢ Countywide sales tax. The City's share of the 1/4¢ Public Safety Sales Tax, 1/4¢

Economic Development Sales Tax and the 1/4¢ County Courthouse is estimated at 8.1% of the total city sales tax for each tax. Growth during the five-year planning period is projected using the same percentage growth rates as the City's 1¢ sales tax.

6. City 1/8¢ Sales Tax is projected using the most current quarterly forecast of sales tax. Overland Park voters approved this tax in November of 1998, with extensions approved in 2003, 2008 and 2013. Collections began in April of 1999 and will continue through March of 2024.
7. Motor Vehicle Tax revenue is estimated based on current motor vehicle assessment rates. Motor Vehicle Tax revenues are forecasted to increase by 3.0% in 2019 and in each year for the remainder of the plan.
8. Intergovernmental revenue, including Liquor Tax and Rental Car Excise Tax, are project to remain constant throughout the 2019-2023 planning period, based on 2017 actuals.
10. Franchise Tax collections are projected to grow 2% annually over the five-year planning period. Changes in the telecommunications franchisees, limited growth in this area and uncertainty regarding the future of taxation on telecom services is the basis for maintaining franchise taxes for the period at projected collection levels.
11. Municipal Court revenues are anticipated to remain flat over the five-year forecast period.
12. Fire Services revenues are projected to increase 2% per year during the planning period.
13. CDBG funds are anticipated to total \$500,000 each year with approximately \$300,000 targeted for Neighborhood Street Reconstruction Program for use in neighborhoods that meet CDBG eligibility guidelines through 2023. This amount is subject to change each year, depending upon appropriations made by the Federal Government, CDBG Citizens Advisory Committee recommendations and Governing Body action.
14. Excise Tax revenue estimates for 2019 are projected at approximately \$3.1 million, and averages \$3.0 million annually during the remainder of the planning period. Development activity is anticipated to continue at a moderate pace through 2023.

The excise tax rate reflects the rates as currently adopted of 21.5¢. This rate is held constant through the planning period.

15. Other revenues are projected to increase an average of 2% per year. Total General Fund current revenues are projected to increase approximately 2.7% in 2019 and 2.1% annually in 2020-2023.

**STORM WATER UTILITY, GOLF COURSE ENTERPRISE FUND, AND SOCCER  
OPERATIONS FUND  
REVENUE ASSUMPTIONS**

Storm Water Utility Fund

1. The assessed valuation (AV) change for the 2019 budget is projected at 5.0% above the 2018 base of \$3,474,210,257. This change in AV includes an increase in the real property valuation due to reappraisal (3.75%) and due to new construction (+\$50.0M), a decrease in personal property (-\$2.0M) and state assessed utility valuation (-1%) due to the elimination of the Machinery and Equipment property tax on purchased items, and a discount for the tax increment financing (TIF) increment (-\$11.0M).

The AV growth rate is expected to remain moderate in 2020-2023. The projected change in AV is projected at approximately 3.0% annual growth during 2020-2023. The annual increase is estimated to be the combined average annual increase due to annual new growth of \$40 million and an average 2% annual reappraisal increase for real property, while personal property is projected to decrease by \$1.25 million per year in 2020-2023, and utilities are projected to decrease 1% annually.

2. The Storm Water Utility (SWU) Property Taxes are based on the projected assessed valuation, assuming a 1% delinquency rate. The 2018 budget SWU property tax rate of .962 is held constant during the period.
3. The Storm Water Utility user fee is projected to increase 1.0% per year in 2019-2023.
4. Motor Vehicle Tax revenue is estimated based on current motor vehicle assessment rates. Motor Vehicle Tax revenues are forecasted to increase by 3.0% in 2019 and in each year for the remainder of the plan.

Golf Course Enterprise Fund Assumptions

1. Golf Course Revenues are projected to increase 2% per year.

Soccer Operations Fund Assumptions

1. Soccer Revenues are projected to increase 2% per year.

## GENERAL FUND EXPENDITURE ASSUMPTIONS

1. Operating Budget.

- A. Actual operating expenditures will not exceed 95% of budget.
- B. 2019-2023 Operating Expenditures.

(1) Operating budget planned growth factors include:

	<u>2019</u>	<u>2019</u>	<u>2020</u>	<u>2021</u>	<u>2023</u>
Salaries	3.5%	3.5%	3.5%	3.5%	3.5%
Benefits	5.0%	5.0%	5.0%	5.0%	5.0%
Commodities/ Contractual Services	3.0%	3.0%	3.0%	3.0%	3.0%
Capital Outlay	1.0%	0%	0%	0%	0%

- C. Outside agency contracts are included in the expenditure assumption.
- D. The annual General Fund Contingency is projected at \$3.5M in 2019, and is approximately 3.0% of operating expenses (approximately \$3.6M-\$4.1M) in 2020-2023.

2. Capital Improvement Program.

- A. Debt used to finance capital projects is programmed to be paid in accordance with a 10-year or 20-year debt retirement schedule using a 3.5% interest rate in 2019-2023.
- B. Projects identified in the first year of the plan will be incorporated into the City's 2019 annual budget. Projects designated in the remaining years of the plan are included for planning purposes; however, funding is not guaranteed.

3. Maintenance Improvement Program.

- A. Maintenance projects are funded with Pay-as-you-go (PAYG), dedicated revenues or intergovernmental funds.
- B. Projects identified in the first year of the plan will be incorporated into the City's 2019 annual budget. Projects designated in the remaining years of the plan are included for planning purposes; however, funding is not guaranteed.

**STORM WATER UTILITY, GOLF COURSE ENTERPRISE FUND, AND SOCCER  
OPERATIONS FUND  
EXPENDITURE ASSUMPTIONS**

Storm Water Utility Fund

1. The operating budget planning growth factors include:

	<u>2019</u>	<u>2019</u>	<u>2020</u>	<u>2021</u>	<u>2023</u>
Salaries	3.5%	3.5%	3.5%	3.5%	3.5%
Benefits	5.0%	5.0%	5.0%	5.0%	5.0%
Commodities/ Contractual Services	3.0%	3.0%	3.0%	3.0%	3.0%
Capital Outlay	0%	0%	0%	0%	0%

2. The five-year forecast does not incorporate expanded level packages for the addition personnel.

Golf Course Enterprise Fund Assumptions

1. The operating budget planning growth factors include:

	<u>2019</u>	<u>2019</u>	<u>2020</u>	<u>2021</u>	<u>2023</u>
Personal Services	3.5%	3.5%	3.5%	3.5%	3.5%
Commodities/ Contractual Services	3.0%	3.0%	3.0%	3.0%	3.0%
Capital Outlay	0.0%	0.0%	0.0%	0.0%	0.0%

2. There are no expanded level packages in years 2019-2023.

3. Overhead payable to the General Fund is calculated at \$250,000 annually, which is approximately 5% of operations.

Soccer Operations Fund Assumptions

1. The operating budget planning growth factors include:

	<u>2019</u>	<u>2019</u>	<u>2020</u>	<u>2021</u>	<u>2023</u>
Personal Services	3.5%	3.5%	3.5%	3.5%	3.5%
Commodities/ Contractual Services	3.0%	3.0%	3.0%	3.0%	3.0%
Capital Outlay	0.0%	0.0%	0.0%	0.0%	0.0%

2. There are no expanded level packages in years 2019-2023.

3. \$300,000 annually will be reserved for future replacement and maintenance needs.

## ATTACHMENT 2

### 2019-2023 FINANCIAL PLANNING STANDARDS USED IN FIVE-YEAR FINANCIAL PLAN DEVELOPMENT

---

---

The City's fiscal policy (Resolution 4215) sets forth the basic framework for the overall fiscal management of the City. Financial standards established by the City help direct the City toward long-term financial integrity and security.

These standards are used to monitor the development of the City's Five-Year Financial Plan, which include the Capital Improvements Program (CIP), Maintenance Improvement Program, and the annual Operating Budget.

Financial standards utilized by the City as a basis for evaluating the financial soundness of the five-year plan include:

#### FISCAL STANDARDS

- 1. PERCENTAGE OF GENERAL FUND ENDING CASH TO OPERATING EXPENDITURES** **30%**  
DESCRIPTION: The General Fund's unreserved undesignated fund balance divided by the General Fund's operating expenditures (excluding transfers) at the end of the financial planning period. (Source of standard – Fiscal Policy, Resolution 3915)
- 2. PERCENTAGE OF P.A.Y.G. TO TOTAL PROGRAM** **Greater than 40%**  
DESCRIPTION: The amount of General Fund, special funds and reserve funds revenues used to finance capital improvements projects, divided by the total amount of the Capital Improvements Program (CIP). (Source of standard – staff.)
- 3. PERCENTAGE OF DEBT TO TOTAL PROGRAM** **Less than 35%**  
DESCRIPTION: The amount of the City's general obligation debt incurred to finance capital improvements projects, divided by the total amount of the Capital Improvements Program (CIP). (Source of standard – staff.)
- 4. PERCENTAGE OF LEVERAGED FUNDS TO TOTAL PROGRAM** **Greater than 20%**  
DESCRIPTION: The amount of intergovernmental and private funds, divided by the total amount of the Capital Improvements Program (CIP). (Source of standard – staff.)
- 5. TOTAL DIRECT DEBT PER CAPITA** **Less than \$1,200**  
DESCRIPTION: The amount of per capita direct-bonded debt (debt for which the City has pledged its full faith and credit) issued by the City. (Source of standard - Moody's Investors Service ratio.)

- 6. PERCENTAGE OF DIRECT AND OVERLAPPING DEBT TO MARKET VALUE OF TANGIBLE PROPERTY** **Less than 5%**  
 DESCRIPTION: The City's direct-bonded debt and overlapping debt as a percentage of estimated market valuation of property within the City. (Source of standard – staff.)
- 7. MILL LEVY EQUIVALENT OF B & I TRANSFER** **Less than 6 mills**  
 DESCRIPTION: The mill levy required to replace the General Fund's annual transfer to the Bond & Interest Fund. These monies are used to pay annual principal and interest payments on the City's maturing general obligation debt. (Source of standard – staff.)
- 8. PERCENTAGE OF DEBT SERVICE COST TO GENERAL FUND OPERATING EXPENDITURES** **Less than 20%**  
 DESCRIPTION: The City's annual payments to the Bond & Interest Fund for debt service cost divided by total operating expenditures (excluding transfers) of the General Fund. (Source of standard - staff.)
- 9. PERCENTAGE OF OPERATING BUDGET TO CITY FUNDING OF THE CIP** **Less than 20%**  
 DESCRIPTION: The current General Fund Operating Budget divided by the total City funds financing the five-year CIP and the General Fund Operating Budget. (Source of standard – staff.)
- 10. PERCENTAGE OF CITY FUNDS FINANCING THE CIP TO THE OPERATING BUDGET** **Greater than 80%**  
 DESCRIPTION: The amount of City funds used to finance the five-year CIP divided by the current General Fund Operating Budget and the total City funds financing the CIP. (Source of standard – staff.)
- 11. PERCENTAGE OF OPERATING EXPENDITURES TO CURRENT GENERAL FUND REVENUES** **80%**  
 DESCRIPTION: The amount of the projected General Fund operating expenditures divided by the projected current General Fund revenues. (Source of standard – staff.)
- 12. PERCENTAGE OF MAINTENANCE EXPENDITURES TO CURRENT GENERAL FUND REVENUES** **5%**  
 DESCRIPTION: The amount of projected infrastructure and facility maintenance expenditures divided by the projected current General Fund revenues. (Source of standard – staff.)
- 13. PERCENTAGE OF CAPITAL EXPENDITURES TO CURRENT GENERAL FUND REVENUES** **15%**  
 DESCRIPTION: The amount of City funds used to finance the five-year CIP divided by the projected current General Fund revenues. (Source of standard – staff.)

# **CAPITAL IMPROVEMENTS PROGRAM**

---

---

Overland Park Resolution 4215 establishes definitions and policies related to the City's long-term fiscal planning, including the City's multi-year Capital Improvements Program.

## **CAPITAL IMPROVEMENTS DEFINED**

A Capital Improvement is the construction or acquisition of a public facility or infrastructure needed to carry out the adopted goals and objectives of the City. Capital expenditures are long-term in nature and have a long-term life.

Generally, equipment, infrastructure or facilities with less than a five-year usable life and with a current value of under \$200,000 will be acquired through the City's operating budget.

## **PLANNING POLICY - CAPITAL IMPROVEMENTS PROGRAM**

It is the policy of the City to identify and set priorities among the capital improvement needs of the community and in accordance with the objectives of the Comprehensive (Master) Plan. The Capital Improvements Program shall program projects over the ensuing five years, taking into account the City's fiscal capacity to finance such construction, operations and maintenance of projects.

- **Review** - The City Manager shall annually provide to the Governing Body an updated five-year Capital Improvements Program for budget planning purposes.
- **Contents** - The Capital Improvements Program shall include:
  - A clear summary of its contents.
  - A list of all capital improvements proposed for the ensuing five-year period along with appropriate supporting material for each project, prepared in accordance with a process approved by the Governing Body.
  - Cost estimates, methods of financing and recommended time schedules for each Improvement.
  - The estimated annual cost of operating and maintaining the facilities to be constructed or acquired.
  - A statement on the fiscal capacity of the City to undertake these improvements and the impact the five-year program will have on the City's goals and objectives, operating budget and fiscal policy.
- **Administration** - The City Manager shall designate an administrative officer of the City who shall be responsible for preparation, supervision and coordination of the Capital Improvements Program and its implementation.
- **Capital Expenditures Budgeted** - Current year capital expenditures (first year of the updated five-year Capital Improvements Program) shall be included in the proposed budget for the ensuing fiscal year following its approval by the Governing Body.
- **Self-Supporting Activities** - A clear distinction shall be made between general purpose government capital improvements and the enterprise activities intended to be self-supporting. All projects proposed to be self-supported must demonstrate their ability to develop sufficient revenue to meet the expected expenditures.

## **2019-2023 Capital Improvements Program**

### **Key to Project Categories**

---

---

**PUBLIC BUILDINGS** - The public building category accounts for major remodeling, upgrading and/or new construction of public facilities.

**PUBLIC EQUIPMENT** - This public equipment category accounts for acquisition of major equipment and technology.

**PARKS AND RECREATION** – This category includes the acquisition and development of various parks, construction and renovation of recreational facilities (e.g., pools, community centers and the arboretum), construction of greenway linkages, golf course improvements, soccer complex improvements and park improvements based on recommendations of Citizens Advisory Committee on Parks and Recreation.

**BRIDGE IMPROVEMENTS** - This category accounts for bridge construction, replacement and repair projects on streets throughout the City.

**STREET LIGHTING** - This category accounts for street lighting improvements made in areas without streetlights, where the lighting level is not sufficient or where outdated lights need to be replaced. The Public Works staff identifies projects each year based on an assessment of needs and benefits.

**RESIDENTIAL STREET PROGRAM** - Each year the Public Works Committee identifies residential streets to be improved during the construction season. The 2019-2023 CIP includes a neighborhood street reconstruction program to reconstruct residential streets which have outlived their useful life.

**STREET IMPROVEMENT** - The street improvement category includes street improvements, intersection improvements, highway improvements and other types of non-thoroughfare street improvements.

**SIDEWALK CONSTRUCTION AND MAINTENANCE** - Sidewalk construction or reconstruction of sidewalks based on citizen petition or staff recommendation.

**THOROUGHFARE IMPROVEMENTS** - This category includes new construction, improvements and widening of designated thoroughfares throughout the City.

**TRAFFIC MANAGEMENT SYSTEMS** - The traffic management systems category includes installation of new traffic control systems at unsignalized intersections, replacement and upgrade of existing systems and interim improvements to signalization in anticipation of future construction, which will require installation of a more permanent signal and signalization of newly constructed thoroughfare street improvements. Maintenance costs for the traffic signal program are included as part of a targeted maintenance program.

**STORM DRAINAGE** - This category addresses stormwater management infrastructure improvements within the City. Infrastructure improvements are made based on the City's compliance with the National Pollutant Discharge Elimination System (NPDES) requirements, prioritized infrastructure improvement needs and petitions from property owners to correct storm drainage problems.

## **2019-2023 Capital Improvements Program**

### **Key to Funding Sources**

---

---

**GO - GENERAL OBLIGATION:** General obligation refers to the process of using long-term debt to finance the cost of a capital improvement. Prior to project planning and design, statutory authority must be established, and the Governing Body must adopt a resolution authorizing the improvement. Ten year GO debt is usually issued for design and/or construction of street infrastructure projects.

**20GO – 20- YEAR GENERAL OBLIGATION:** Twenty general obligation refers to the process of using 20-year debt to finance the cost of a capital improvement. 20-year debt is typically used for land acquisition or facility construction. Prior to project planning and design, statutory authority must be established, and the Governing Body must adopt a resolution authorizing the improvement.

**PAYG - PAY AS YOU GO:** Funding budgeted each year in order to pay cash for the capital improvement. This fund is used in lieu of issuing general obligation bonds.

**EXCIS - EXCISE TAX:** Represents excise tax payments.

**1/8STX - 1/8-CENT SALES TAX:** Revenues from the voter-approved dedicated 1/8-cent sales tax for street improvements finance a program targeted at improving and maintaining the City's street and traffic management infrastructure. The tax was originally approved in November of 1998 and went into effect in April of 1999. In 2003, 2008 and 2013, voters approved extensions of this tax. The tax is currently scheduled to sunset in March of 2024.

**CCSTX – COUNTY COURTHOUSE SALES TAX:** The City's portion of revenues from a countywide 1/4-cent sales tax to support construction of a new county courthouse. Passed in November 2017, sales tax collections begin on April 1, 2017. The tax is scheduled to sunset on March 31, 2027.

**ESC - ESCROW FUNDS:** Escrow funding paid by private developers or property owners to pay their portion of the project. This money is paid prior to the start of the project.

**SA - SPECIAL ASSESSMENT:** Property owners benefited by improvements are charged all or a portion of the cost of the improvement, based on the type of project. In the case of a bank stabilization project, property owners are required to pay up to one-third of total project costs. In the case of a storm drainage improvement project, property owners are assessed a minimum 4.5% of the total property and improvement valuation, provided that the sum of the assessments equal at least 5% of the total project cost.

**SWU - STORMWATER UTILITY FUNDS:** Stormwater utility funding includes revenue generated from an ad valorem property tax dedicated to stormwater management and from a stormwater user fee paid by all property owners within the City. The user fee is based on the amount of impervious surface existing on each property.

**JOCO – JOHNSON COUNTY FUNDS:** County funding includes both the County Assistance Road System (CARS) program and the Johnson County Storm Water Drainage (SMAC) program. The funding source for the drainage program is the County's 1/10 cent stormwater sales tax.

## **KEY TO FUNDING SOURCES – continued**

**OCITY - OTHER CITY:** Funding from other cities. The cost of a capital improvement project which is constructed in conjunction with another city is shared with that city.

**KDOT - KANSAS DEPARTMENT OF TRANSPORTATION:** Represents state funding of system enhancements in accordance with the State's comprehensive transportation plan.

**TFED – FEDERAL TRANSPORTATION FUNDS:** Congress allocates federal transportation funds to each state, which distributes the funding. Prioritization of projects and funds in the Kansas City metropolitan area is done by the Mid-America Regional Council (MARC). This category also includes federal demonstration project funds.

**CDBG - COMMUNITY DEVELOPMENT BLOCK GRANT:** Funds from the City's CDBG entitlement appropriation are used to fund residential street improvement projects recommended by the CDBG Advisory Committee. Federal guidelines require that a minimum of 70% of these funds be spent on projects and programs that benefit low and moderate income persons within the community.

**OFED - OTHER FEDERAL FUNDING:** Funding from other federal sources, such as the Congestion Management/Air Quality Program (CMAQ) funding.

**ERF - EQUIPMENT RESERVE FUND:** Represents funding available from the Equipment Reserve Fund. This fund provides flexibility in meeting operational needs by providing a resource to stabilize Citywide equipment replacement in lieu of issuing short-term debt.

**GCR - GOLF COURSE REVENUE:** Golf Course revenues that exceed operating expenses (which include a computation for overhead) are used to fund golf course improvements.

**SPR - SPECIAL PARKS AND RECREATION:** Revenue to this fund is provided by the liquor tax imposed on gross receipts of liquor sales by clubs, caterers and drinking establishments. One-third of the City's total revenue from this tax is required by state statute to be "expended only for the purchase, establishment, maintenance or expansion of park and recreational services, programs and facilities." Projects are recommended by the Citizens Advisory Committee for Parks and Recreation.

**SOC - SOCCER REVENUE:** Soccer Complex revenues that exceed operating expenses, may be used to fund improvements at the Complex.

**PRIV - PRIVATE FUNDS:** These funds will be provided by private individuals, organizations and corporations to support specific projects.

**ODF - OTHER DEBT FINANCING:** Other debt financing refers to short-term debt financing of less than ten years.

**OFIN - OTHER FINANCING:** Other financing refers to sources of funding that are not normally used in the context of the City's CIP planning

	Construction of a fire station and police offices in the vicinity of 159st and US69 Highway. The fire component replaces the existing Fire Station #5, while the police component provides satellite offices in southern Overland Park. Land has been dedicated by developer as part of the development of the 159th and US 69 highway. Project budget includes funding for design, construction and furniture, fixtures and equipment (FFE). <i>Revised cost based on project actuals. Project still open for warranty period.</i>				2014	0 *GO 580,000 *PAYG				2014	0 *GO 580,000 *PAYG	0 *GO 0 *PAYG

PR-1891	<b>Arboretum and Botanical Gardens Visitor Center</b> Construction of 22,000 square foot visitor center in conjunction with the Arts and Recreation Foundation of Overland Park (ARFOP). The building will consist of class rooms, a multi-purpose room, an executive conference room, a café, library, gift shop, offices and a central corridor for gathering and display purposes. The scope also includes construction of a parking lot, expansion and enhancement of the gardens around the visitor center building, the "great lawn", an outdoor space to hold special events such as weddings, the first phase of the outdoor sculpture garden. This building and associated improvements is in accordance with the Arboretum and Botanical Gardens masterplan. Approximately 80% of project funding will come from private donations through ARFOP. The City's share will include contributions from the Special Parks and Recreation Fund (\$375K) and county sales tax (\$2M). Parks & Recreation Maintenance.....	128
2019-2023 TOTAL .....	137

## **Maintenance Program Definition**

---

---

Maintenance as included in the City's five-year maintenance program is defined as significant repairs to, renovation or rehabilitation of, or in-kind replacement of city infrastructure and facilities. The City's maintenance program includes both major and preventive maintenance projects.

Major maintenance includes renovation of, large-scale repairs to, and in-kind replacement of existing city-owned assets. Preventive maintenance includes projects and programs to protect and significantly extend an asset's useful life.

Routine annual work or minor repairs to equipment, infrastructure or facilities are defined as an operating expense. Replacement of infrastructure or facilities which would result in increased capacity are defined as a Capital Improvement.

## **2019-2023 Maintenance Program Key to Project Categories**

---

---

**STREET INFRASTRUCTURE MAINTENANCE** - This category addresses major and preventive repair and maintenance of street and thoroughfares within the City,

**STREET & TRAFFIC INFRASTRUCTURE MAINTENANCE** - This category addresses repair and maintenance of street and thoroughfares within the City, and repair and maintenance of traffic signals, street lights and the traffic control and communications system within the City.

**STORM DRAINAGE MAINTENANCE** - This category addresses repair and maintenance of the storm water management infrastructure within the City.

**PUBLIC BUILDINGS MAINTENANCE** - This public building category accounts for repair, remodeling and maintenance of public facilities.

**PARKS AND RECREATION MAINTENANCE** - This category includes the repair, remodeling, and maintenance of park and recreational grounds, facilities and amenities at parks, community centers, golf courses, soccer complex and the Arboretum.

## **2019-2023 Maintenance Program**

### **Key to Funding Sources**

---

---

**PAYG - PAY AS YOU GO:** Cash funding budgeted each year to finance maintenance projects.

**SSH – SPECIAL STREET AND HIGHWAY FUNDS:** Pass-through funds from the State of Kansas motor fuel tax. Motor fuel tax revenues are receipted in the Special Street and Highway fund. In accordance with state statute, these funds may only be expended on the repair and maintenance of city streets.

**1/8STX - 1/8-CENT SALES TAX:** Revenues from the voter-approved dedicated 1/8-cent sales tax for street improvements finance a program targeted at improving and maintaining the City's street and traffic management infrastructure. The tax was originally approved in November of 1998 and went into effect in April of 1999. In 2003, 2008 and 2013, voters approved extensions of this tax. The tax is currently scheduled to sunset in March of 2024.

**CCSTX – COUNTY COURTHOUSE SALES TAX:** The City's portion of revenues from a countywide 1/4-cent sales tax to support construction of a new county courthouse. Passed in November 2016, sales tax collections begin on April 1, 2017. The tax is scheduled to sunset on March 31, 2027.

**SWU - STORMWATER UTILITY FUNDS:** Stormwater utility funding includes revenue generated from an ad valorem property tax dedicated to stormwater management and from a stormwater user fee paid by all property owners within the City. The user fee is based on the amount of impervious surface existing on each property.

**JOCO – COUNTY FUNDS:** County funding includes both the CARS program and the Johnson County Storm Water Drainage program. The funding source for the drainage program is the County's 1/10 cent stormwater sales tax.

**ERF - EQUIPMENT RESERVE FUND:** Represents funding available from the Equipment Reserve Fund. This fund was established to provide flexibility in meeting operational needs by providing a resource in lieu of issuing short-term debt.

**GCR - GOLF COURSE REVENUE:** Golf Course revenues that exceed operating expenses (which include a computation for overhead) are used to make golf course improvements.

**SPR - SPECIAL PARKS AND RECREATION:** Revenue to this fund is provided by the liquor tax imposed on gross receipts of liquor sales by clubs, caterers and drinking establishments. One-third of the City's total revenue from this tax is required by state statute to be "expended only for the purchase, establishment, maintenance or expansion of park and recreational services, programs and facilities."

**SOC – SOCCER COMPLEX REVENUE:** Soccer complex revenues that exceed operating expenses are used to for improvements to the Soccer complex.

**OFIN - OTHER FINANCING:** Other financing refers to sources of funding that are not normally used in the context of the City's maintenance program planning.

**MAINTENANCE PROGRAM**
